

CLEVER SOFTWARE TO HELP MANAGE CHARITY BOARDS

Governance360 provides simple to use tools that help **volunteer boards**, and their **executive teams**, **manage risk, improve process** and strengthen their delivery.

Built by a team with **experience sitting on Charity Boards**, our platform makes **running board meetings, risk registers** and **compliance simple**; all at incredible value for money.

Put simply our tool helps promote **good governance** (without interfering), making your **charity more efficient** and helping **build your case for funding and support**. We do this via **four core features** included in our platform:

BOARD PORTAL

A simple to use workflow tool that helps you manage, structure and circulate your Board papers, policies and documents. No more last minute email searches or Dropbox deep dives!

RISK REGISTER

Identify, assess and mitigate risks effectively with our comprehensive risk register builder. Whether this is your first or your 100th attempt at a risk register, let our wizard-driven tool take the strain.

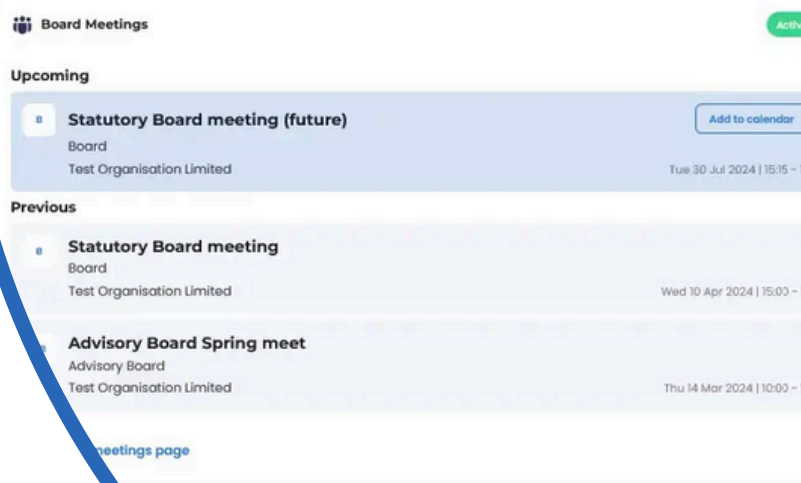

ACTION REGISTER

Create Actions, set reminders and export outputs to provide accountability on autopilot. Manage Documents and Policies quickly using reminders and expiry reports to save time & manage compliance

BOARD ACADEMY

Help upskill your Charity Trustees with access to a CPD accredited Board Academy, built by practitioners for use in the real world. Digestible 30 minute modules ensures uptake amongst boards.

"We've been using the Governance360 board portal since the start of the pandemic to manage our board meetings and processes. It has helped us be more efficient, more process-driven and customer service has been fast and efficient. "

Part-time Company Secretary
LEADING REGIONAL CHARITY

I worked as a Chartered Accountant for many years and had the privilege of sitting on the boards of many charities, so I know first hand the pain points of time (and sometimes experience) poor boards.

So often I found that as running a charity board was none of the Trustees' day job basic board management, document processes and admin took up the majority of board meetings (which were often just 30 minutes per month!) Reflecting on this I wanted to create a simple product that would automate a range of admin tasks, allowing charity boards to focus on the work that matters; that product is Governance360.
