Catherine Roberts
WELSH TRIATHLON

The story of Governance360 all starts with skateboarding (yes, really). After working as a Chartered Accountant and having the privilege of sitting on the boards of many private companies and charities, I was lucky enough to be asked to be part of the team that set-up a new national governance body, SkateboardGB, to herald the launch of skateboarding in the Olympics in Tokyo 2020.

At the time I knew first hand the pain points of time (and sometimes experience) poor boards and knew for the new governing body of SkateboardingGB to succeed we’d need processes in place to ensure compliance and risk management from day one - so I created Governance360 to do just that!
