

Governance **360°**

Less risk, more impact for you and your Board

A simple to use board governance system that creates a single source of truth for your risk register, policies, actions, board papers, board development and more!

“Being a board director is probably more complex than ever. We’ve also seen a massive increase in the expectations of the board”

McKinsey Insight March 2024

GOVERNANCE MADE SIMPLE FOR DIRECTORS, BY DIRECTORS

Governance360 is proudly built by directors who know first-hand the difficulties of being a board director and the risks and time pressures that this can bring.

Important processes can often be placed at the bottom of the list of priorities. So why do Boards still operate using email, cloud storage and excel alone? Why risk your livelihood, reputation and resources to poor process?

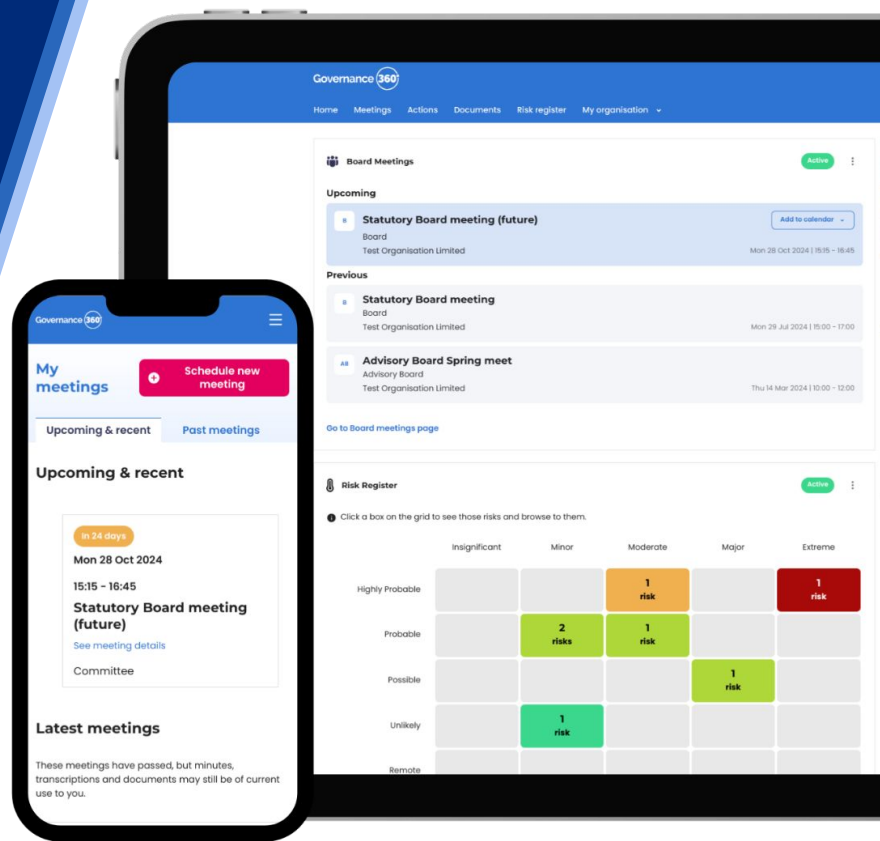

We think you deserve better. Governance360 helps you stay on track with autopilot, minimising your risks, maximising your time and impact.

PRACTICAL TOOLS TO MAXIMISE YOUR TIME AND IMPACT

Avoid the pitfalls of using cloud, email and excel to manage your board (and yes - all data you input is also reportable AND exportable quickly, you aren't trapped!)

- **Risk Register** - a comprehensive risk register to track your risks in a live, up to date, environment
- **Meetings** - one single place to capture your board minutes, creating structure and enabling new members to quickly engage and get up to speed with your Board
- **Action Register** - increase accountability by tracking tasks, deadlines and responsibilities
- **Documents & Policies** - don't forget a renewal again. 24 hour a day access to key policies with built-in reminders and reporting to help
- **Academy** - upskill your board with practitioner built, CPD-accredited board training course

SIMPLE SETUP

Our simple software can be set up in as little as 30 minutes, with boards retaining complete control on the timing of launch to trustees and directors. Thanks to our intuitive system (built collaboratively with our early users), new members require little training or onboarding and generally get started in less than 10 minutes.

TRIAL

Get started with a free trial to better understand our governance system.

ADMIN SETUP

Create initial admins to invite users to your new account.

BOARD SETUP

Upload your board papers, build your risk and action registers with our simple setup wizards.

USER SETUP

Your board will receive login details and, with our simple pick up and use system, can get started right away.
